

# The Carbon Chronicle

VOLUME 34: No. 14

Authorized as Second Class Mail, Post Office Department, Ottawa  
ACME, ALBERTA, THURSDAY MAY 12th, 1955 \$1.50 a Year; 5c a Copy

Mr. and Mrs. R. D. Barnes left last week to make their home in Calgary.

A Silver Tea will be held at the home of Mrs. C. Graham on Monday, May 16th from 3 to 7 p.m.

Lynn Bushby was a patient in the Drumheller hospital this week.

Grades one and two held a very nice Mothers and Grandmothers Party in the School Auditorium on Monday afternoon in honor of Mothers' Day.

Mr. and Mrs. Harry Hunt were weekend visitors at the home of their son and daughter-in-law, Mr. and Mrs. James Hunt, Calgary. Also F.O. Howard Hunt and F.O. J. Geotz who are stationed at Winnipeg with the R.C.A.F.

I.O.D.E. are sponsoring an essay contest for the students of Grades 1 and 2. The winners of each grade will read their essays on May 25th in the School Auditorium at 2 p.m. Everyone is invited to hear these children at the auditorium.

Don't forget the I.O.D.E. Dance June 17th.

Mrs. Harry Hunt attended the Anglican W.A. Convention held in Calgary this week.

## RED CROSS CONTRIBUTIONS

## LITTLE LEAGUE BASEBALL LEAGUES ORGANIZED

A well-attended meeting for the purpose of organizing Little League baseball was held recently in the Three Hills Community Centre. Representatives were present from Huxley, Trochu, Three Hills, Carbon, Swalwell and Acme. George Van Doren of Three Hills was named President and Clarence Larden of Swalwell as Secretary-Treasurer of the League. It was agreed to form two four team leagues: the north (National), consisting of Huxley Cardinals, Trochu Dodgers, Three Hills Cubs and Ghost Pine Braves; the South (American), consisting of Three Hills Red Sox, Swalwell Indians, Acme Tigers and Carbon White Sox. Each league is to play 24 games. Two games in each league each Tuesday, starting May 17th and concluding the first week in August. Postponed games are to be played off on the Thursday or Saturday following the postponement. All games are to start at 6:30 sharp. Two points for a win or one point for a tie; if necessitated. The winner of the North will play the winner of the South in a best of three Little World Series.

A further meeting in Three Hills April 26 decided on the following:

The home team will be responsible for securing the official umpire for each game.

The league will commence on May 17 and conclude by Aug. 6. The first two games of the

## CARD OF THANKS

W. A. Braisher wishes to thank all those who visited him in the Drumheller and Calgary General hospital during April. He also wishes to thank all those who so kindly sent flowers and "Get Well" cards. These were very much appreciated.

## CARD OF THANKS

We wish to express our many thanks to all the kind people who helped us when we called for help in the recent accident of our son and brother, and for the many flowers, cards, etc. in our recent sad bereavement.

Mr. and Mrs. O. Raiser,  
Mrs. Leo (Irma) Beibrick.

FOR SALE—Youth's Bed. Honey finished Maple. Good condition \$18.00.

—Apply Leslie Bramley, Carbon.

FOR SALE—FRYERS for sale reasonable.

## UNWANTED HAIR

Vanished away with Saca-Pelo. Saca-Pelo is not like ordinary depilatories that remove hair from the surface of the skin but penetrates through the pores and retards the growth of the hair. Lorbeer Lab. Ltd. Ste. 5 679 Granville St., Vancouver, B.C.

## Money in the bank

Millions of Canadians know the value of a bank account—the security and comfort it brings, the peace of mind it assures, the enterprise it makes possible.

When you keep your money in a chartered bank you know it is safe. And you are dealing with friendly, experienced people, skilled in the management of money and anxious to share their knowledge with you.

There is a type of account to suit your purpose, some designed to help you accumulate funds, others featuring the convenience of chequing.

Your local branch bank provides these and many other services. It is much more than a handy, safe place to keep money. It is a banking service-centre where you can count on prompt and courteous attention to all your banking needs.

THE CHARTERED BANKS SERVING YOUR COMMUNITY

Only a chartered bank offers a full range of banking services, including:

### SAVINGS ACCOUNTS

Keep your money safe; pay you steady interest; encourage the habit of thrift.

### CURRENT ACCOUNTS

For individuals and companies who pay by cheque; your cancelled cheques serve as receipts.

### BANKING BY MAIL

Convenient, and saves time. All your routine banking can be handled in this way.

### JOINT ACCOUNTS

Savings or Current; for two or more people, any of whom can make deposits or withdrawals.

## GARDEN NOTES—

## Humus is good substitute for manure--compost heap

One of the very best substitutes for manure is humus, which is simply a fancy name for any vegetable refuse, grass clippings, weeds, straw or even clean garbage, which has been mixed or covered with soil, piled in a corner, watered occasionally and allowed to decompose.

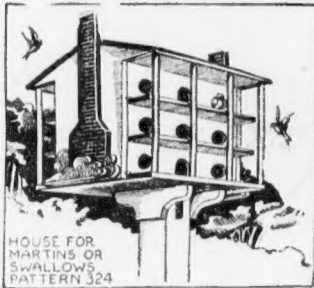

The careful gardener will not waste anything that will rot down. All weeds, either pulled or cut, any grass clippings or leaves, are piled on the compost heap, or if we have not such a thing, they will be dug under right in the garden and immediately. This material will add loose bulk to any soil, making light sand more retentive of moisture and loosening up clay and making it easier to cultivate.

### From a little space

It is simply astounding the amount of vegetables that can be produced from a little plot ten to twenty feet each way. And not only is big volume possible but there is another advantage and that is high quality vegetables ready for salad or pot right at the door.

It is usually possible to buy vegetables cheaply in this country during the summer months, but no matter how close the corner fruit store is, it is just impossible to get certain things that compare in freshness with those harvested from our own garden. Fake peas or corn, or lettuce or radish, all these vegetables quickly lose their freshness.

## Home Workshop

This apartment house for purple martins is the right size to make a backyard attraction. Martins like to make their nests near a dwelling. It must 10 to 12 feet off the ground or it will not be used. This mansion complete with chimney has no framing so make it of 3/4-inch glued-up stock. Use any width of scrap to be found around the shop. The pattern gives tracing diagrams for the shaped parts and large drawings showing just how to cut out the pieces and the steps in assembling. This pattern is included in the Bird House Packet which will be postpaid for \$1.50. If only the martin house is ordered send only 85c.

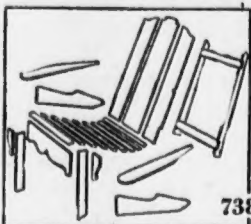

Besides the illustrated directions for making the cabinet in the sketch above, today's pattern shows how to modernize various outmoded beds. Remember those of the last Century with head pieces as high as a tall man? With foot to match? The pattern sketches show a simple process to bring such pieces up to date. And what has become of all those fancy brass beds? If you have either of these old styles you will want this pattern. With a few minutes use of the hacksaw these brass jobs are trimmed down to Hollywood lines all ready for tailored slipcovers and spreads. How to measure materials for ruffled slipcovers and to make spreads with corded seams is shown with large sketches on pattern 313. Copy of this pattern is 35c.

Address order to:

## Patterns

Easy to make!

by Alice Brooks

Build your own wooden lawn or patio chairs—easy to do—saves many dollars besides!

Woodcraft Pattern 7385: Simple directions for making lawn, porch or patio chairs. Actual-size paper pattern pieces included, with easy-to-follow number guide.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Department P.P.L.,  
Household Arts Department,  
60 Front Street W., Toronto

Be sure to write plainly your Name, Address and Pattern Number.

WONDERFUL is the word—for our NEW Alice Brooks Needlecraft Catalogue for 1955. Exciting, enchanting—our new designs are all that—and even more! Send 25 cents for your copy of this terrific catalogue—NOW! You'll want to order every wonderful design in it!

## Saskatchewan municipal system booklet

REGINA.—A 104 page Golden Jubilee edition of "The Municipal System of Saskatchewan" has recently been published by the provincial Department of Municipal Affairs.

Prepared and written by George F. Dawson, administrative officer with the department, the booklet traces the history of municipal government from 1875 to the present day. It is well illustrated with photographs, charts and maps.

The booklet is available without charge, to interested persons and groups, upon request to the Department of Municipal Affairs, Legislative Building, Regina.

Live right—Eat right—Feel right

## Stadium seats 150,000 persons

Brazil boasts the largest stadium in the world, Maracana, which seats more than 150,000 spectators, says the National Geographic Society. Completed in 1950 and built of reinforced concrete, it provides an impressive setting for soccer games, Brazil's national sport.

Soccer players are among the most lionized notables of the country. Their salaries sometimes reach \$20,000 a year. A 9-foot moat inside the stadium around the playing field protects players from zealous fans.

Corn is a native of the North American hemisphere.

## SAVED GOAT

CALGARY.—A pet goat owned by farmer Woody Laboret had its leg broken when stepped on by a horse. It was thought the goat would have to be destroyed but veterinarian Dr. Morris Hanson put the leg in a knee-to-toe cast and said it will be as good as ever.

## SMILE OF THE WEEK

Officer (to man pacing the sidewalk at 2 a.m.): "What are you doing here?"

Man: "I forgot my key, officer, and I'm waiting for my children to come home and let me in."

Electric fencing cannot be used for sheep because their fleece acts as insulation.

"Try my favorite recipe for the month"

## CUSTARD BLANC MANGE

1/2 cup granulated sugar  
5 tablespoons BENSON'S or CANADA Corn Starch  
1/4 teaspoon salt  
4 cups milk  
2 eggs, well-beaten  
1 1/2 teaspoons vanilla

MIX sugar, BENSON'S or CANADA Corn Starch and salt in top of double boiler.

ADD milk gradually, mixing until smooth.

PLACE over boiling water and cook, stirring constantly, until mixture thickens.

COVER and continue cooking 10 minutes longer; stir occasionally.

REMOVE from heat; pour gradually over two well-beaten eggs, stirring constantly.

RETURN to double boiler and cook two minutes longer; stir constantly.

REMOVE from heat, add vanilla; cool.

POUR into dessert dishes; chill before serving.

YIELD: 6 to 8 servings.

NOTE: Use 6 tablespoons BENSON'S or CANADA Corn Starch for molded Custard Blanc Mange.

## Saskatchewan to space polio shots as recommended by Dr. Jonas Salk

REGINA.—The Saskatchewan health department has accepted the recommendation of Dr. Jonas Salk regarding the timing of polio vaccine immunizing doses, Hon. T. J. Bentley, has announced. The first two doses will be given a month apart and that the third dose will be offered eligible children in the autumn. No change will be made in the age groups to be immunized at present. This group will continue to be those born in 1949 and 1950.

The central advisory committee at Ottawa had previously recommended the first two injections a week apart and the third a month later.

While the changeover at the eleventh hour involved a rearrangement of plans, the department considered the Salk recommendation to have sufficient validity to justify the changes. Several other advantages were seen.

The central committee at Ottawa recommended the immunization at this time of children born in 1949 and 1950. In Saskatchewan there are about 38,000 children in this age group. At the same time, the committee allocated from the limited supplies sufficient for only 29,000 children.

Mr. Bentley said that the department had faced the unpleasant possibility of not having sufficient vaccine if all the 38,000

children were brought to the clinics.

### Enough for all

Delay in the third dose until autumn, when additional supplies will be available, meant that no child in the prescribed age group would have to be refused the protection.

He also said the rearrangement, with ample supply on hand would eliminate acute difficulties in re-allocations between the many Saskatchewan clinics. Each clinic now can be sent enough to give the children the first two doses.

Mr. Bentley added that the department was fully confident that Dr. Salk's recommendation for the revised schedule of dosage would result in a satisfactory level of protection in the vaccinated children.

This opinion was shared by a number of other provincial health

departments and by the Connaught Medical Research Laboratories in Toronto, where the vaccine is being produced.

The plans made for the organization of the immunization program slated to begin in May could be adjusted to adopt the Salk recommendation. A considerable number of difficulties would have to be overcome but departmental officials were confident that these can be met.

Residents of the organized health regions and of Saskatoon and Regina should look to their medical health officers for details of places and times for the clinics, Mr. Bentley said.

Outside these cities and health regions the particulars regarding clinics and the municipalities they are to serve will be announced in the press and on the radio, and in addition each urban and rural municipal office will be supplied with a list of the clinics. Parents of eligible children may consult these lists to determine where the children should be taken for immunization.

## Against law to sell unlicensed varieties certified seed potatoes

Under the Seeds Act the sale of certified seed potatoes of unlicensed varieties is prohibited in Canada. The Regulation covering this reads, "Seeds or plants of potatoes shall not be advertised, offered, sold or had in possession for sale for the purpose of seeding or planting in Canada, unless such variety is licensed for sale by the minister."

It has recently been noted, states the Chief of the Plant Protection Division, department of Agriculture, Ottawa, that in the Prairie Provinces certified seed potatoes or unlicensed varieties are being imported by firms who wish to resell them. This is a contravention of the regulations.

Practically all the older established varieties are licensed and to avoid contravening the regulations importers who are anticipating resale of imported seed should ascertain whether or not the variety is licensed. A list of licensed potato varieties may be obtained from the local representative of the Plant Protection Division, or directly from the chief of this division in Ottawa.

It is also pointed out that importation of potatoes from countries other than the United States is, in general, prohibited or restricted and an import permit is required in advance.

## Balanced diet weight control

Excess weight can often get out of control, despite good intentions. One way of keeping a firm check on those extra ounces is to stick to a balanced diet which is helpful in maintaining a normal weight since it supplies the necessary proteins, minerals and vitamins minus those fat-building extras that a haphazard eating program may contain.

The teenager with his growth and general activities may need between-meal snacks but the adult who has a sedentary job will do much better on the diet recommended by Canada's food rules.

Today is yesterday's pupil.

## Remote control French train

PARIS.—A French locomotive pulling a string of cars was run for several miles by radio remote control recently as the engineer sat several miles away in a control tower.

The train picked up speed as it left the station and in three minutes was hitting 60 miles an hour before it was braked to a stop near the control tower. It was operated through a radio receiver installed in the locomotive cab.

A French railways spokesman said it was the first time a train has been operated by remote control.

## Uranium traces found in coal Eastend area

REGINA.—Uranium in minor amounts was found to be present in a sample from a coal seam in the Eastend area of Saskatchewan, according to Hon. J. H. Brockelbank, minister of mineral resources.

Although not of commercial grade, the minister said this particular sample had the highest radioactivity of any found in coal to date in Canada.

The coal sample referred to by Mr. Brockelbank was found by Dr. W. O. Kupsch of the University of Saskatchewan, who was in the area making a study of white mud formations. The sample tested .01 percent U3O8 equivalent (oxide of uranium), and the ash, which represented 17.2 percent of the coal, contained 0.05 percent U3O8 equivalent.

Dr. Kupsch, assistant professor of geology, took samples last summer. They were turned over to the Mines and Technical Surveys, Ottawa, for analysis, with findings only recently turned over to provincial officials.

The federal department indicated that separate measurements of the gamma and beta activities on the ash, gave results of 0.057 and 0.054 percent U3O8 equivalent respectively. Close agreement of results, and lack of appreciable quantities of potassium, suggested that the radioactivity was chiefly uranium.

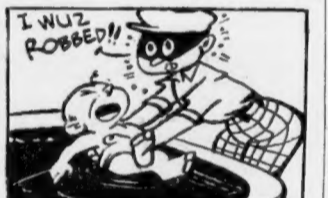

Mr. Brockelbank said the coal is from the Ravenscrag formation, which is equivalent to the Fort Union and White River in North Dakota—lower tertiary and upper cretaceous. He said uranium also has been found in coal formations of the same age in Wyoming's Lost Creek, Red Desert and Miller Hill, several places in North Dakota, southwestern Montana and northwestern South Dakota.

## Strictly Fresh

"Waddle we do about the little nuisances who want ducktail haircuts?" Birmingham, Ala., barbers answered the question by bopping the teenage eccentrics with a boost in price of odd-type haircuts from \$1 to \$1.25.

Gale-force winds in Flint, Mich., turned back hands of an outdoor clock. Long-winded politicians have been blowing time to a standstill at rallies for years and years.

Burglars in Tokyo, Japan, bathed a little boy and tucked him in bed while waiting to rob the

child's father. If the lad exhibited the average six-year-old's aversion to water, those holdup men earned whatever money they obtained.

"When the roll is called up yonder" — "yonder" being Oakalla Prison at Burnaby, B.C., there's someone who definitely won't be there. One of the inmates walked out with a church choir which sang at a prison service.

A sure sign of spring is the lack of it in a youngster's step as he wends his way to school.

## Do You Know That . . .

Breeding of sheep with different colored fleeces is an art in Kashmir.

## New city called Lelystad to be built by Dutch

Community of 50,000 to be erected on land reclaimed from sea

By ESTHER V. W. TUFTY (CPC Correspondent)

LELYSTAD, Holland.—To understand the storybook country of Holland, a third below sea level, one must know the old and the new.

Some 1,300 windmills still turn to keep the water at safe levels in the canals. Wooden shoes are seen in the rural area especially on potato farmers, who are deep in mud at this season of the year. And not all the quaint old world costumes are put on just to attract tourists.

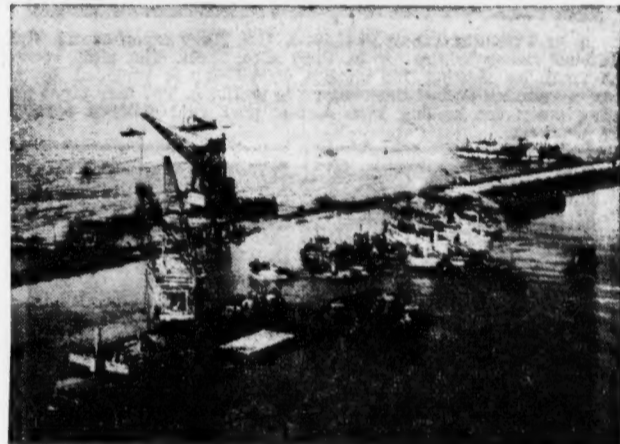

That's what visitors expect to find here, but I have just visited a city so new it hasn't happened yet.

Lelystad will some time be a city of 50,000 Dutchmen, but today it's just beginning to emerge out of the water of the old Zuyder zee. Today this city-to-be is but a speck of frenzied activity connected with the mainland by a dyke on top of which the road is almost, but not quite completed, so we had to take a boat to visit it.

Temporary dwellings house 18 families and there are barracks, dining rooms and a hall for the other workers reclaiming the seabottom on this water frontier.

One engineer told me all sorts of fascinating debris is being found on the sea bottom. Some 14 old boats, bones of prehistoric animals—but, as yet, no chests of gold and jewels or 300-year-old liquor casks!

Lelystad is named for a Dutch

A road (right) is being built atop the dike. It will connect Lelystad with the mainland. Approach now is by boat only.

—Central Press Canadian.

engineer, Cornelis Lely, who daringly proposed a 20-mile dyke to cut off that arm of the North sea known as the Zuyder zee.

It means reclaiming 550,000 acres surrounding a new fresh water lake. This eases the excess population problem but it is even better news for farmers than salt water fishermen who must learn to fish for a different catch in strange new boats.

I talked with the wife of one of the workers who is making a home on an old barge. She doesn't mind being isolated from all her friends and relatives because, "It's so exciting to watch day by day

a city come right out of the water."

Her children commute by boat back and forth to a school on the mainland. Like all good Dutch housewives her window ledges were lined with flowers "which seem to do better here."

Lelystad is reminding everyone of the Frenchman who said, "God created the world, with the exception of Holland, which was created by the Dutch themselves."

One of the government officials added, "Few visitors realize that if we for one day stopped 'managing the dykes' all of Holland would disappear in 24 hours."

## Stuffed Peppers Go to Sea for a Flavorful Shrimp Cargo

BY DOROTHY MADDOX

FISH and sea food, now available everywhere, either frozen, fresh or canned, produce delicious protein-rich main dishes in well-balanced meatless meals. Here are three mouth-watering recipes for you.

### Shrimp-Stuffed Peppers (Makes 4 servings)

Four green peppers, 1 can Spanish rice, 1 pound raw shrimp, fresh or frozen (or one 5-ounce can of shrimp).

Slice off tops of peppers at stem end. Clean out seeds. Cook peppers and shrimp in boiling, salted water about 5 minutes. (If canned shrimp is used, do not cook; simply drain and devein, if desired). Meanwhile, heat Spanish rice in a saucepan. Clean shrimp.

Reserve enough shrimp for garnishing, and chop remaining shrimp. Add chopped shrimp to Spanish rice and spoon into peppers. Top each pepper with a whole shrimp. To keep hot until serving time, put stuffed peppers in a saucepan with a tight-fitting lid. Put about ¼ cup water in bottom of pan.

Cover and keep hot over low heat. Add more water if necessary.

### Fish Sticks Oven Meal (Makes 3 to 4 servings)

On a large baking sheet, arrange fish sticks from the frozen package, slices of cooked sweet potatoes (either canned or fresh) and thick tomato slices. The fish sticks need no further preparation. Drizzle melted butter or margarine and honey over potato slices and season tomatoes with salt and pepper; dot with butter or margarine. Bake at 425 degrees F. (hot oven) 15 to 20 minutes.

### Fillets with Brazil Nut Sauce (Serves 3)

Let 1 pound fish fillets thaw until they can be separated. Place in a frying pan. Add ¼ cup water and 1 tablespoon lemon juice. Cover pan and let simmer 8 to 10 minutes, or until fish flakes easily

Mmmmm! Green peppers, stuffed with shrimp and Spanish rice. Here's a treat fit for King Neptune to serve to the family.

when tested with a fork. Place on heated platter and pour Brazil nut sauce over fish.

### Brown Butter Sauce with Brazil Nuts

Put 3 tablespoons butter or margarine in a heavy saucepan, melt and cook very slowly until it is hazelnut brown. Serve over fish fillets garnished with toasted Brazil nuts.

To prepare Brazil nuts: Cover shelled Brazil nuts with cold water. Bring water slowly to boil and let simmer 3 to 4 minutes. Drain. Slice nuts. Brush slices with butter or margarine, place on cookie sheet or in baking dish. Place in moderate oven (350 degrees F.) 10 or 15 minutes until golden brown. Turn occasionally.

## :: GEMS OF THOUGHT ::

### PRINCIPLES AND IDEALS

Our principles are the springs of our actions; our actions, the springs of our happiness or misery. Too much care, therefore, cannot be taken in forming our principles.

—Philip Skelton

When men are most certain that their actions are guided by plan and principle, they are too often moving by hunch and expediency.

—Raymond Moley

He who merely knows right principles is not equal to him who loves them.

—Confucius

We are all sculptors, working out our own ideals, and leaving the impress of mind on the body as well as on history and marble, chiselling to higher excellence, or leaving to rot and ruin the mind's ideals.

—Mary Baker Eddy

Convictions are splendid when they relate to important matters; they are a public nuisance when they provoke a row over a petty detail.

—Bruce Barton

Being forgotten isn't very important if the ideals and the thoughts that one was made of go on and keep alive.

—Caleb Milne

**A PLATFORM THAT FLIES**—A U.S. Navy experimental 'flying platform' takes to the air at Palo Alto, Calif. The pilot controls the craft by shifting his weight. Propulsion is provided by two counter-rotating ducted fans under the platform. The four pipes projecting down are landing legs. A test pilot said children could fly the platform.

**EFFECTIVE 80-90 PERCENT**—The vaccine works was the news flashed around the world recently from Ann Arbor, Mich. The reports of the field tests of the vaccine shows it is 80-90 percent effective against paralytic polio. In the photo above John Almond, one of the first of 20,000 Toronto children being inoculated with the new vaccine, takes the doctor's needle with considerable stoicism.

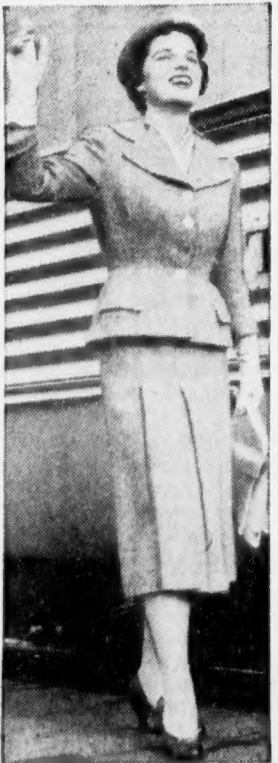

**KISS OF VICTORY**—Mayor-elect Roe Bartle of Kansas City, Mo., didn't kiss any votes good-bye in campaigning for office. Prize-winning smooch, above was delivered to 8-months-old Sue Ann Falcone on election day itself.

**SPOTTED "TIGER"** — While tigers (jungle variety) have never been known to change their stripes, tigers — Detroit Tigers, that is—are sporting spots these days. Good bid for Freckle King of the major leagues could be entered by rookie J. W. Porter, who brought his freckles from Shawnee, Okla., to the Detroit team's outfield.

**SWIMMING TOWEL** — Coral-and-white terry cloth, trimmed with white cotton fringe, is teamed in this three-piece beach ensemble. Now being modeled in Miami, Fla., for wear "up north" this summer, the strapless, elasticized swimsuit has bloomer pants which match coat and elfin hat.

**TWEED TRAVEL** suit from Michael of London has an easy walking skirt. Morgan's will show this suit in the fashion shows inaugurating the new CPR train.

**TRACKING GEESE BY RADAR**—A flight of Canada geese pass over a radar tower at the Jack Miner bird sanctuary near Kingsville, Ont., where Defence Research scientists view the flock in studies to find effect of the birds on radar.

**MEN WILL BE BOYS**—Danish Ambassador to Norway Mathias Wassard, right, and Norwegian minister of commerce Aren Skaug forget the cares of office for a few moments as they try out three-wheel pedal cycles at the Danish Trade Show in Oslo, Norway.

**IN PERFECT CONDITION**—The steaks on the platter, that is, if you've even noticed them. They're covered with a special plastic coating during the freezing process, and are said to keep in a home freezer for as long as two years, according to the Chicago, Ill., manufacturer who has developed the process. Model is Donna King.

# The Sports Clinic

(An official department of Sports College)  
Conducted by Lloyd "Ace" Percival  
Pre-season equipment care

Now is the time to get that summer sports equipment out of the closet and put it into good shape for the coming season. Make sure that your leather equipment, gloves, shoes, etc., are well conditioned with saddle soap. Finally, check to see that your uniform and other equipment is all right. Take care of your equipment. It may mean avoiding a serious injury.

## Play a secondary game

For those athletes in such strenuous sports as football, track, basketball, etc., a wise move would be to learn a secondary sport such as volleyball, tennis golf or badminton. This is part of the tapering off process and should be included in an athlete's schedule. The secondary sport skills should be learned while the athlete is still in good shape. So to continue your program of mental and physical health take up one of the less strenuous sports.

## Pay attention when practising

Study shows that when the average athlete is being instructed by his coach or is practicing on his own, only one in ten actually gives the job his full attention. This does not mean he stands there looking off into space or thinking of something else, but that he is not consciously directing his attention.

So, if you want to get the most out of your practices, start the season right and direct your full

attention to what you are trying to do or to the instructions to which you are listening.

## Develop proper eating habits

Now is the time to develop those all-important proper eating habits. To sustain a feeling of vigor—in athletics and in everyday life—it is important to get at least 100 gms. of protein a day. To do so make sure you eat lots of the dairy products—milk, cheese (especially cottage cheese) also lean meat, fish and eggs. Simply by making sure you drink a quart of milk a day you are assured of 40 gms. of protein. This gives you a terrific start, is easy to get and pleasant to take.

## TRAVELLING TURTLES

Tremendous numbers of land turtles, migrating with the seasons, once wore deep trails between highlands and seashore in Ecuador's Galapagos islands. Only wide enough for one tortoise at a time, the gullies forced the shellbacked travellers to move in single file, all at the leader's pace.

A date palm may bear fruit for about 200 years.

## Feed seldom cause of loss in poultry

Harmful ingredients in feeds are rarely the cause of serious declining performance or mortality in poultry flocks, states C. R. Phillips of the Plant Products Division of the federal department of Agriculture.

When losses occur, a few affected birds should be submitted to a poultry pathologist for laboratory examination, because the cause of death in nearly all cases is disease.

It is recognized that poultry diets are sometimes deficient in vitamins and minerals, which may affect the health of the birds. Such health changes, however, do not occur overnight, and an observant poultryman will notice these changes before they reach serious proportions.

A change of feed when an outbreak of disease has arisen in the flock, has often been credited for the control. Actually the disease has run its course as it would have done on the original feed and valuable time is lost when corrective action probably could have been taken had a poultry specialist been notified.

## RESISTANT WOOD

Cypress timber of the Pacific coast is heavier than cedar and more resistant to damp.

## Manitoba Fruit Fair August 24

Manitoba's Provincial Fruit Fair will be held this year August 24 and 25, in Winnipeg in the Civic Caledonian rink, Sherbrooke street.

The show will be held in conjunction with the Provincial Honey Show and the shows of the Winnipeg Horticultural Society, the Winnipeg Gladiolus Society and the Winnipeg African Violet Society.

Entries in the Fruit Show are open to residents anywhere in the province. Prize lists will be available at a later date and will contain information on the competitive classes of apples, crab apples, plums, raspberries and strawberries and on the educational displays to be staged.

Further information may be obtained from E. J. Weir, Manitoba department of Agriculture.

The moon has no appreciable atmosphere.

## Kitchen Meditations By JANE DALE

### SONG FOR ALL CANADIANS

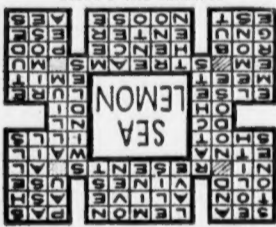

Come all men of the soil, the fisheries and mines;  
Of water, and the air; the towns and cities too;  
Stand firm beneath our flag across this wide domain.  
To our God, our country and ourselves be true!  
Stand firm Canadians!  
Hold fast to liberty!  
Move on; look up; attain our goal,  
With strength in unity!  
Come men of all lands; all creeds;  
No matter what our birth, our high or lowly caste;  
Stand firm for Right; a precious heritage  
Bequeathed to Canadians from our glorious past.  
Stand firm Canadians!  
(written when Canada entered the war—1939-1945)

### Here's the Answer

## WEEKLY BIBLE COMMENT

### GROWTH IN GRACE IS A PROCESS WHICH NEVER STOPS

The apostle, Peter, in the closing of his Second Epistle, admonished his fellow Christians to "grow in grace, and in the knowledge of Our Lord and Savior Jesus Christ."

With regard to the great essentials of the Gospel of Christ in its proclamation of the power and saving grace of God, and in the application and manifestation of the Gospel in personal character and conduct, there was no division among the great founders of Christianity, regardless of how much they might differ on minor matters.

So Peter, in his call for growth in grace, is only expressing what Paul emphasized in many ways throughout his Epistles. In Paul's epistles the word "grace" occurs twice as often as in all the rest of the New Testament. A commentator has pointed out that it is the first word of greeting, and the last word of farewell, in Paul's letters.

In Luke, the reference is to "the gracious words" of Jesus, as He spoke in the synagogue at Nazareth. And in Colossians, Paul advises the disciples there to "let (their) speech be always with grace, seasoned with salt." (A good counsel for our own time, especially as it is a way of knowing "how to answer every man.")

But grace, for Paul, in greeting, farewell, conversation, or manners always had its meaning in the grace of God manifest in Jesus Christ. Here, as it was the source and power of salvation, was the source of power for Christian living.

It was not something static; attained once-and-for-all and never changing or growing. It was dynamic; a force ever-present and ever-active.

Grace, one of the most precious riches given to us by Christ, is as inexhaustible as it is unsearchable.

## Weekly Tip

### BRUSH CARE

Hair brush bristles that have become soft and flabby can be stiffened by rinsing in a water solution of alum after washing.

### VAST LAKE AREA

Canada's lakes, large and small, contain more than half the freshwater area on the earth. 3139

## Timber wolf setting at new museum depicts marauders on trail of moose

REGINA.—The timber wolf, common in forested parts of Saskatchewan, will be the subject of an interesting display at the new provincial museum of natural history in Regina, which is scheduled to open officially later this spring.

This display case depicts a crisp moonlit winter night in typical wolf range country of Saskatchewan. In the foreground, standing lifelike among spruce trees and willows are two adult timber wolves. A little further back toward the forested hills and snow-covered ravine which makes up the horizon, two more wolves are approaching.

The setting for the scene is taken from east-central Saskatchewan, not far from the Manitoba border and looking north from the portage between Hell Diver lake and Shallow lake in the Pasquia provincial forest. Seven miles to the north of the area which has been reproduced is the Carrot River flowing eastward toward The Pas in Manitoba. To the west, or left side of the case rises the escarpment of the Pasquia Hills.

The portage trail can be seen clearly marked by a tall spruce tree which has had the limbs partly cut away near the top. This serves as a marker plainly visible from the far side of the lake and helps guide the canoe traveller in summer or the dog team musher in winter.

A moose, as can be seen by the tracks, has followed the trail and fed briefly on the willows at the right of the case.

Meanwhile a pack of wolves, consisting usually of a pair and their young from the previous spring, have left their resting

place among the gullies near the timbered hills for their hunting grounds. They have struck the trail of the moose and are evidently intent upon making an attempt on its life.

Anyone viewing the display might readily imagine hearing the hunting cry of the pack starting on a medium note, rising momentarily to a high note and then gradually descending in a blood-chilling quivering wail.

This cry of the wolf has terrorized many a person while out alone on the trail, but in spite of stories abroad which say the animals are dangerous to humans, authorities report there is not one case on record of a timber wolf attacking a person.

## On The Side : By E. V. Duelling

### A debatable point

Do women dress to please themselves, to arouse the envy of other women, or to attract men? That is something that is endlessly discussed. James Laver, internationally celebrated expert on the subject of clothes, has said, "Women take pleasure in dressing—in competition with other women—to please men. The basic impulse of feminine fashion is to attract the opposite sex."

### The price was right

John Law, Scottish financier and speculator, originated a bet he made many times and never lost! He offered 20,000 to 1 that any man who wished to bet on it could not throw double sixes with dice six times in succession. A surprising number of men took his bet. They were aware it bordered on the impossible, but they liked the price.

### Music and matrimony

One out of every 10 proposals of marriage is made while the couple is dancing. So says an expert on the subject of marriage. The tune currently inspiring the most proposals is "All I Want From You." It used to be "Why Do I Love You?" Before that it was "My Blue Heaven." Anyway, if your daughter is having difficulty in inspiring the man in her life to propose matrimony, tell her that the next time he takes her dancing she should arrange to have the band play "All I Want From You."

### Pampering the help

Not so long ago a color psychologist said if a secretary wore a red dress it would stimulate her brain. Make her quicker on the trigger mentally. Now another expert on the same subject claims black typewriters are depressing. That they slow up a secretary and decrease her endurance. He suggests brighter colors for typewriters and favors yellow. Keep this in mind, mister. If your girl Friday seems a trifle slow mentally and lacking in speed as a typist, buy her a few red dresses and a yellow-colored typewriter.

### "Tips" from Stengel

What is a fair tip for breakfast service in a first-class hotel? How about a quarter? Casey Stengel, manager of the New York Yankees, has issued a schedule of tips for his players to adhere to.

### A strain on system

The majority of saxophone players become bald-headed at a comparatively early age. This is also true of cornetists and all others who play the horns in dance bands and symphony orchestras. Why? Well, sir, it is claimed the physical strain of blowing the horns affects the circulation and deprives the roots of the hair of their due supply of blood.

### HIGHWAY SOLID

FORT ST. JOHN, B.C.—A reconstruction program of Alaska highway bridges has started with Last year, for instance, there was foot Lard river bridge. Engineers report the 1,500-mile highway and its more than 1,000 bridges are standing up well in the present spring run-off.

### ANSWERS TO QUICK QUIZ

5. More than 44,000 miles, a total exceeded only in Russia and the U.S. 3. Welfare and social security spending exceeds defence spending. 1. Two-thirds own homes, one-third rent. 4. Less than 7 persons per square mile of area. 2. 1926.

(Material prepared by the editors of Quick Canadian Facts, the pocket annual of facts about Canada.) 3139

### HOUSING BOOM

If the present rate of house building is maintained in Canada, says The Financial Post, Calgary would double its size in six years, Edmonton in eight and Toronto in 12 years.

## Funny and Otherwise

Sign on a restaurant closed by the Health Inspector: "Opened by Mistake" . . . Sign on a feed store: "Turkey Dinner 10 Cents" . . . Sign in a pet shop window, displaying an empty bird cage: "Love Birds For Sale—When They Return From Their Honeymoon" . . . Sign on store front: "During Alterations There Will Be No Business—As Usual".

While out on a date, the girl and her escort were suddenly caught in a downpour of rain, and ran for cover in the doorway of a night club. "Let's go in this night club," suggested the young lady, "If we stand out here we'll get wet."

"Yeah," said her escort gloomily, "and if we go in there we'll get soaked."

A reveller was leaning out of a window on the third floor of a hotel when suddenly he overbalanced and fell to the pavement below. A crowd soon gathered; then a policeman arrived and pushed his way to where the reveller was lying, and demanded: "What's going on here?"

"Dunno," replied the reveller, "I've only just got 'ere."

A young officer returning from leave was about to take his place in an airliner when a girl ran up and asked the passengers if any one of them would be kind enough to sell her his seat as her mother was dangerously ill and the liner was full up.

The officer gave up his seat and wired his C.O.: "Given berth to girl. Returning by next plane."

The reply he received ran: "Congratulations. Your next confinement will be in barracks."

## Plant cuttings must root to survive

John Walker, Forest Nursery Station, Indian Head, Sask., states that cuttings, which are portions of stems separated from parent plants, can survive and grow only if roots first develop on them and secure water and plant food from the soil or medium in which they may be planted. Therefore, the more favorable conditions are for the development of roots, the higher will be the survival and the greater the development of roots and new growth.

In the propagation of plants from unrooted hardwood cuttings, whether secured in the fall or in early spring, the less they have been exposed to drying or varying conditions the better will be the results after being planted.

For best results with poplar or willow cuttings received from Forest Nursery Stations in Spring, the planter should select a place for them in the garden where the soil is friable, and reasonably damp and where additional care and moisture can be given to them throughout the growing season. By following this plan a higher percent of rooting and greater top growth are likely to occur, than if the unrooted cuttings are planted where they are to be finally located.

Early in spring of the following year the rooted plants can be planted in the permanent location and at the spacing desired. In planting the rooted cuttings should be handled in the manner recommended for young trees. Top growth may be pruned to a reasonable degree prior to planting.

In addition to poplar and willow cuttings, cuttings of currant, grape, tamarix and other plants that can normally be increased by hardwood cuttings should be treated in the same way.

### MAIN EXPORTERS

Iceland, Denmark and Canada are the main exporters of live cattle, shipping 480,000, 329,000 and 228,000 head respectively of world exports of 1,900,000 in 1951.

## Quick Canadian Quiz

1. What proportion of Canadian families own their own homes?
2. In what year was Queen Elizabeth born?
3. Which costs Canadians more, national defence or state spending on welfare and social security?
4. Excluding the Yukon and Northwest Territories does Canada have 7 persons per square mile of area, 14 persons, 21 persons?
5. Canadian railways operate how many miles of single track?

## OUR COMPLETE SHORT STORY—

## THE PATTERN

By ANNA E. WILSON

WIMPY stood looking at the great crane swinging along its narrow gauge track with big, husky Ole Peters riding it with a load of freight. Wimpy shivered, then jumped as the voice of the President barked out.

"Where are those stock reports, Wimpole? It does seem as if you could find some work to do around here instead of standing staring at the roof."

The stock reports, in their wire basket, were right now reposing on the President's desk, placed there by Zack, the red-haired office boy. Zack had no fear whatever of the President, who tolerated his lack of respect for any kind of authority with restrained patience; but sometimes it seemed as if the President could hardly see Wimpy's small, under-sized figure and mildly frightened face without barking at him. The President was a big man and plump, while Wimpy stood a bare five feet two and weighted little over a hundred pounds.

Wimpy climbed up on his stool and started working at his ledgers. He was chief clerk and should have been head bookkeeper long ago for his work was accurate, but when it came to promotions it was easy to overlook Wimpy in favor of more aggressive men.

"The old man's on the ramp this morning, Wimpy," Zack had heard the President's bark and was sympathetic. "Doctor's just reported that Ole's got to come off the crane. Got a bad heart and even though he carries heart pills in his pocket, Ole's always stripping to the waist and leaving his clothes in the dump basket."

Wimpy put down a careful figure. "It's too bad about Ole. He loves that crane and hates the job as watchman Mr. Zimmerman's got mapped out for him. How's your mother getting along now, Zack?"

"Mother's not working much anymore. Things are pretty tight right now, but the Old Man's promised me the first opening round here with more pay. Maybe as a clerk. What's that you got there, Wimpy, your lunch?"

Wimpy nodded. "Saturday afternoon, you know. I'm going to eat it in the Park."

Zack whistled cheerfully. "Bet the pigeons get most of it, Wimpy. It's a shame, keeping you here all these years when you should be on the book." He jumped as the President's bark came out at them.

"Wimpole, where's the time sheet?"

Zack grabbed the time sheet and fled. At the President's door, he cocked his head on his fifteen-year-old neck and walked in boldly.

Wimpy wished he could be more like Zack. To be sure the President barked at Zack, too, but he was very apt to give him a stray quarter or a bottle of coke, just as he was apt to give, on occasions, a cigar to Ole, the big crane-man; but Wimpy was so insignificant that in the rewards for merit he was completely overlooked.

Wimpy put his desk tidy and picked up his lunch. He put his hat on carefully, and calling goodbye to Zack, went out on the street. He boarded a bus timidly, pushing in among the passengers, and got out at the Park. He passed through the Park and entered in at the big iron gates of the Zoo. The gateman smiled

as he took his ticket. "He's waiting for you, eating his heart out," he joked mildly, as Wimpy made his way to the cage of Milo, the big African lion.

Wimpy was a little man, shy, and timid. Someone had told him once that we are very apt to take on the qualities of the things that we admire and Wimpy had a pathetic admiration for the big lion. He shivered deliciously when he roared, and when Milo lay like an immobile statue just thinking, Wimpy came timidly closer to the bars.

Spending each Saturday afternoon with the lion made Wimpy's life tolerable. Watching Milo, he could imagine himself walking right up to the President and asking for the job of chief bookkeeper. He imitated the dignified walk of the great beast, one foot ahead of the other, silent and sure, or he just sat quietly on the iron bench and studied him. Sitting thus, Wimpy's heart swelled and he dreamed happily of doing some fine deed that would bring him into the limelight at the office. He could imagine the President bowing or maybe shaking him by the hand.

But Monday morning found Wimpy back at his desk, as neat and methodical as ever. There wasn't much opportunity for doing daring deeds at Zimmerman's, and if there was, it didn't come in the way of timid little clerks, no matter how willing.

"Wimpole," the President's mood was worse than usual by the sound of his bark. "Go out and tell Ole I want him."

Wimpy went out into the jody of the plant and looked towards the great crane just as he heard a startled shout from the foreman. The big crane lurched, came to a dead stop in the middle of the track and Ole could be seen falling over against the side of his basket.

"Holy cow," the foreman's voice was hoarse, "Ole's having a heart attack."

In less than a minute, the whole place was in a hubbub with the President yelling for someone to do something, but it seemed as if there was nothing to be done. Ole's condition was dangerous. The only way to get help to him was along the narrow track, only a few inches wide, high above the main floor. Men looked at the dizzy height, at the track like a thin ribbon, and shook their heads—all but Wimpy.

Nobody noticed the little clerk quietly get the pills from Ole's pocket and start to climb, and Wimpy climbed steadily. His stomach was sick and his head dizzy but he reached the track and started to walk out to Ole. Half way across the track he glanced down and panic seized him. He started slipping sideways while his mind went blank for a split second—and then, suddenly, he was no longer Wimpy, he was Milo; stepping safe and sure, he felt a mild sort of exhilaration. He climbed down into the basket, gave Ole his heart table and started the machinery. Eager hands seized Ole and carried him off to the hospital, while Wimpy, for the moment forgotten, climbed back on his high stool and buried his face, white and shaken, in the ledger.

Even the President was early on Tuesday. Wimpy could hear him barking right through the office door, as Zack scurried in with the stock reports. "Who's responsible for the promotions round this office anyway? Why hasn't a man like Wimpole been made head bookkeeper long ago? Zack," he roared, at the boy's retreating back. "Get out there and go to work with Wimpole."

"Gosh, Wimpy," Zack's voice was awed, "Everybody thinks it's wonderful, what you did for Ole." "Wimpole," said Wimpy with dignity.

60 Front Street W., Toronto.

Hailstones as much as a pound in weight and three or four inches in diameter are sometimes formed.

## Stem rust warning, worse than last year, is report

Scientists at the laboratory of Plant Pathology in Winnipeg are watching closely the development of rust in the southern United States. They report stem rusts on wheat to be further advanced than at this period in 1954.

Under last years severe epidemic of 15B stem rust, Selkirk wheat was the only variety to come through undamaged. Moreover, it proved to be a high yielding variety and of excellent quality.

Honorable R. D. Robertson, minister of Agriculture urges farmers, who have not already done so, to obtain supplies of Selkirk wheat for this spring's seeding.

Because of the embargo on the export of Selkirk wheat to the United States, which will not be lifted before July 1st, 1955, there are considerable stocks of Selkirk wheat obtainable in many districts.

Farmers who are relying on Lee wheat as sufficient protection against rust should be advised that this variety does not have resistance to race 15B stem rust. Fair yields of Lee wheat in 1954 may be attributed to early seeding and resistance to leaf rust which attacked much earlier than did stem rust.

Stem rust could attack early

this season, in which case, Lee could be severely damaged.

To insure minimum rust losses the department of Agriculture is stressing the advisability of planting the maximum wheat acreage to rust-resistant Selkirk wheat. Your agricultural representative can advise where stocks of Selkirk wheat can be obtained.

## Ho for the open road!

The scent of spring in the air should call all hikers out to the country before the insects get busy with well sharpened stings. Take along a meal to eat outdoors; include whole-grain bread with meat, cheese or eggs as filling. Add some fruit or raw vegetables and a vacuum flask of hot or cold drink, since the water from those little wayside streams may be quite badly polluted.

## TV SETS

Some 110,374 TV sets were sold in Canada in the first quarter of 1954, some 45 percent ahead of the 1953 figure.

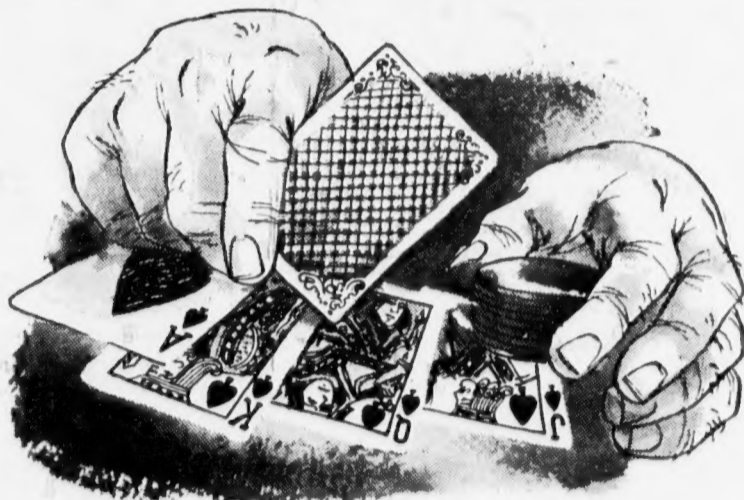

## Date-Orange Pudding

Combine in a greased casserole (6-cup size) 1/4 c. corn syrup, 1 tbs. grated lemon rind and 1/2 c. orange juice. Preheat oven to 375° (moderately hot). Mix and sift once, then sift into a bowl, 1 1/2 c. once-sifted pastry flour (or 1 1/2 c. once-sifted all-purpose flour), 2 1/2 tps. Magic Baking Powder, 1/2 tsp. salt and 1/4 c. fine granulated sugar. Mix in 3/4 c. corn flakes, slightly crushed, and 1/2 c. cut-up pitted dates. Combine 1 well-beaten egg, 1/2 c. milk, 1/2 tsp. vanilla and 3 tbs. shortening, melted. Make a well in dry ingredients and add liquids; mix lightly. Turn into prepared dish. Bake in preheated oven, about 40 minutes. Serve warm, with pouring cream. Yield—6 servings.

## More Comfort Wearing FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. FASTEETH, an improved powder, sprinkled on upper and lower plates holds them firmer so that they feel more comfortable. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug counter.

## Helps You Overcome Itching of Piles Or Money Back

You do not have to be tortured and embarrassed by the itching soreness and burning pain of piles any longer. Here is real help for you.

Get a package of Hem-Roid, an internal pile treatment, at any drug store and use as directed. You will be pleased at how quickly your pile trouble is relieved. Only \$1.59 for the big 60 tablet package. If you are not 100% pleased after using Hem-Roid 2 for 3 days, as a test, ask for your money back. Refund agreement by all drug stores.

## LITTLE LEAGUE BASEBALL

Continued from front page  
World Series are to be played on the home grounds of the two participating clubs. A third game, if necessary, is to be played in a neutral park. Neutral umpires shall officiate in all World Series play.

Team representatives will report game summaries with the use of cards provided by the organization.

Home teams will be responsible for providing an official scorer.

The league will be known officially as "The Little Prairie

Baseball League".

It was agreed that each club submit the name and date of birth of each player on its roster on or before June 15, 1955. Any game played prior to June 15 with ineligible players shall be declared forfeited by the offending team.

A registration fee of \$3.00 per club will be levied to take care of incidental expenses.

Sudden death playoff between teams in second and third place.

Monday, June 6th—

Sudden death final with top team.

All games are at 6 p.m.

## WEST REGION DRUMHELLER PRESBYTERY WOMEN'S ASSOCIATION MEETING

Representatives from Acme, Swalwell, Beiseker, Drumheller, Carbon and Rockyford gathered in the Rosebud United Church on Wednesday, May 4th. About fifty registered and lunch was served by the Rosebud group. Mrs. Rasmussen, the President of the Rosebud W.A. welcomed the members of the Presbytery Association and Mrs. Berreth responded on behalf of the visitors. Mrs. R. Kenney, the Vice-President, welcomed the guests and the Rev. W. P. Smetheram gave a greeting for the Rockyford Charge and the Drumheller Presbytery. Mottos of the W.A. and the W.M.S. were repeated in unison and all joined in the W.A. prayer. The Acme group led the devotional period with Mrs. Jackson reading the Scripture, a prayer offered by Miss Loewen, and a solo by Mrs. Mylene Reddekopp, and Mrs. Greenway brought greetings from the W.M.S. Reports of the year's activities were given by the Presidents of the groups,

Mrs. M. L. Jackson, Acme; Mrs. S. Torrance, Carbon; Mrs. Berreth, Beiseker; Mrs. Wacker of Swalwell; Mrs. Rasmussen, Rosebud, and Mrs. F. Ewing, Rockyford. A solo was sung by the Rev. W. P. Smetheram. A very interesting account of life at the Naramata Training School was given by Miss Gloria Rau, and Mrs. Torrance of Carbon conducted a Memorial Service.

Mrs. W. Acton of Drumheller was the chief speaker who dealt very ably with the aims and objectives of the W.A. The Rev. K. G. Syer presented the claims of St. Stephen's College and Naramata. A vote of thanks was tendered by Mrs. Wacker to the Rosebud ladies for their excellent hospitality and to all those who took part in the program. The Rally was formally closed by a prayer offered by the Rev. W. P. Smetheram.

Municipal District of Kneehill No. 48, Three Hills, Alberta.

All property owners are notified of the passing of By-Law No. 213: "No building or other obstruction shall be erected within a distance of 51 feet from the centre line of any District Highway within the Municipal District unless the consent of the Council has first been obtained."

Have you made your contribution to the Canadian Cancer Society's 1955 Drive for Funds to

## HOW MANY MINUTES PER GALLON?

Of course, you **don't** have to make gasoline yourself. But you **do** have to work at your job to make the money to buy gasoline. And today you don't have to work nearly as long as you did in 1939, or even 1946.

Back in 1939, the average Canadian had to work **33 minutes** to earn enough to buy a gallon of gasoline.

Seven years later, in 1946, the same Canadian had to work **29 minutes** to earn enough to buy a gallon of gasoline.

Today he has to work only **17 minutes**—about half as long as in 1939—to buy a gallon of gasoline.

(It's much **better** gasoline, too. Two gallons of today's gasoline does the work of three gallons made in the 20's.)
